

*The Definitive*  
collection

High Performance Traditional & Contemporary Composite Doors

# What is a composite door?

**Your front door is one of the most important features of your home, so why not create a stylish entrance that you, your guests and passers by can admire. Come home to a centrepiece that is strong, safe and secure, functional for everyday use, energy efficient and pleasing on the eye.**

Our composite doors incorporate a combination of the finest quality components that all purposefully work together to create a high performance door. The surface of the door is made from GRP (Glass Reinforced Polyester), which is considerably stronger than PVCu.

The Definitive Collection composite door is built to last and will easily stand up to the challenging demands of the British climate.

From the 1st October 2010, new building regulations relating to doors came into force and you can be assured that all of the composite doors contained within The Definitive Collection achieve or exceed the new 1.8 'U' value requirement. 'U' values are a measurement designed to measure the heat loss through products such as windows and doors, the lower the value the more energy efficient the product becomes.

Our composite doors are all bespoke and are individually made to measure with your own personal specification and colour/design choices. Our doors are covered by a comprehensive guarantee so please speak to your installer for further details.

***“Raising security standards with an uncompromising approach to designing out crime”***

# One philosophy... Two choices...

As well as choice of style, colour and glass, you can also choose from one of our two outer-frame options to create that perfect match. The outer-frame is also available in a range of coloured and wood-grained foils.

**System10**

Chamfered

Sculptured

*Rustique*

## Composite Door Features

- 1 Stormguard low level aluminium thresh with optional Document 'M' wheelchair ramps
- 2 Authentic timber looking PVC weather-bar
- 3 GRP compression moulded skins
- 4 Polyurethane thermally insulated core. The thermal performance of this product is far superior to timber
- 5 Engineered timber frame
- 6 Adjustable hinge
- 7 Wool-pile weather seal
- 8 Galvanised Steel reinforcing
- 9 Black low line gasket
- 10 Choice of Sculptured or Chamfered outer-frame
- 11 2mm PVC Grained edge-banding

### the outer skin...

The outer skin is compression moulded using Glass Reinforced Polyester. This creates a high-definition grain effect that cannot be achieved using standard panel technology.

### the core...

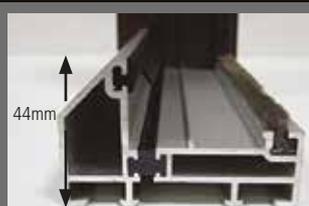

The core is filled with an insulating core of 100% CFC-free polyurethane. The performance of this product is exceptional, outperforming timber nine times.

### the perimeter...

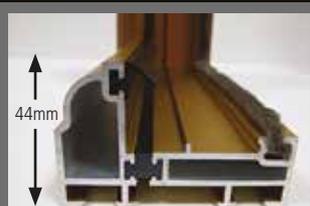

The core and timber surround is protected by a perimeter of water resistant polymer instead of timber. Rather than purely relying on treated timber, this product ensures that no water can penetrate to the core. Being a polymer, it has none of the drawbacks of timber.

## Thresholds...

We offer a wide range of thresholds for our composite doors. See the pictures below for the types and colours available:

27mm Clearance Under The Door

27mm Clearance Under The Door

39/55mm Clearance Under The Door

19mm Clearance Under The Door

Our aluminium 44mm rebated threshold carries the best weather performance and is available in either silver or gold. The shape of this threshold mirrors either the chamfered or sculptured frames providing a suited product.

We also offer two different sizes of PVCu threshold.

Our lowest profile threshold is available in either silver or gold and is suitable for wheelchair access using the optional ramps that can be fitted both internally and externally.

# Who we are...

The philosophy for The Definitive Collection was driven by our desire to offer you products that have been designed and manufactured with a 'no compromise' attitude.

Regardless of the style of property you live in, we are sure to have a perfect solution to meet your design aspirations. The Definitive Collection offers you a comprehensive choice of products either from our classically styled sculptured range or from our more contemporary styled chamfered range.

High performance solutions are available to suit any application, whether you are looking for a sympathetic door replacement for your 18th century farmhouse, or a more contemporary look for a modern house or city centre apartment. You can even have your door in any colour you want! Your decision...Your choice...

The Definitive Collection has built a strong reputation over the last 20 years for taking an uncompromising approach to the components we use. Unlike windows a front door is generally used several times every day and therefore the locks and furniture need to be of the highest quality. We only fit premium branded products that we are confident will last year after year standing up to the toughest conditions and changes in the British climate.

View our entire range at [www.thedefinitivecollection.co.uk](http://www.thedefinitivecollection.co.uk)

# Living Life in Colour...

Let your imagination run free and enhance your Composite Door with our unrestricted range of colour options.

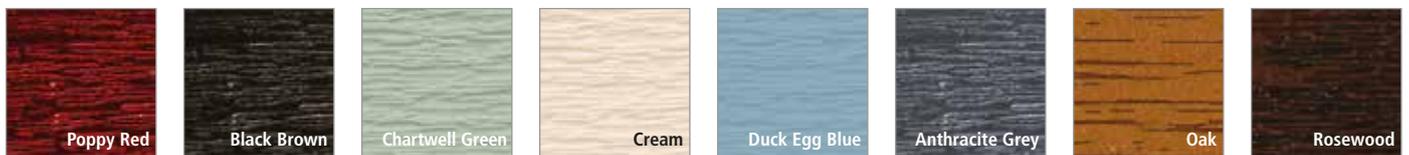

## Standard Colours

## Authentic Weather Bars

Our weather bars are 55mm deep and colour matched to replicate the traditional weather bar on a timber door.

## Premium Colours

## Foiled Outer-frame Colours

## Painted Colours

The Definitive Collection Composite Door range can be supplied in any colour for a small premium. All we need is a RAL colour or recognised BS reference and your new door will represent your individuality.

A Definitive Collection installer will guide you through the process to help create your perfect door. All doors are supplied using a Satin finish.

The colours of the doors and glass shown in this brochure are for guidance only and may vary owing to the limitations of the photographic reproduction and printing processes.

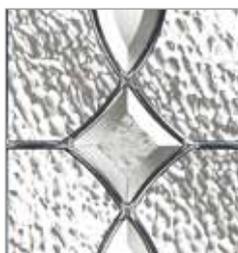

**Did you know...** that over 70% of all burglaries are entered through a door, yet there is no minimum security standard in the UK for replacement doors. Rest assured that all Definitive Collection doors are fitted with either Winkhaus or Yale multi-point locks together with 3 star high security euro cylinders as standard.

# Our Decorative Glass Designs

## REFLECTIONS (TRIPLE GLAZED)

This brand new and stunning contemporary design incorporates clear, etched and subtle grey glass in a striking design, where light beautifully refracts and reflects off the bevelled edges. This choice will provide a high level of privacy whilst still allowing light to flood into your home. No backing glass available.

## ELEGANCE (TRIPLE GLAZED)

With Elegance, you can create a timely and truly stunning visual statement. Fluid lines, generous curves and inspirational design combined with extraordinary craftsmanship produces an outstanding focus for your home. No backing glass available.

## ABSTRACT (TRIPLE GLAZED)

A rich visual symphony for the senses, this contemporary design pays homage to the curvaceous. If you want to make a unique style statement, you'll love the Abstract glass. This dazzling fusion of multi-faceted jewels, cut textured glass pieces and hand bevelled glass will sparkle with the changing light. No backing glass available.

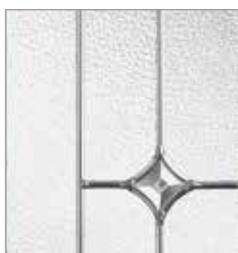

## PRAIRIE (TRIPLE GLAZED)

Simplicity, balance and exceptional quality. The purity of the Prairie glass draws its inspiration from Frank Lloyd Wright, one of America's greatest architects. Hints of cubism come together with leading edge glass technology to create a wonderful multi-textured finish and a surprisingly contemporary design. No backing glass available.

## FLAIR (TRIPLE GLAZED)

Effortless elegance and eye-catching style combine to create a stunning focal point. The sweeping polished zinc comes combine beautifully with the combination of the ever popular glue chip and kasumi textured glasses to create a simple minimalist design option. No backing glass available.

## ZINC STAR (TRIPLE GLAZED)

Simple in design, Zinc Art Star combines glue chipped star bevels with a zinc coming. The decorative bevelled elements stand out from the neutral obscure glass that surrounds them in striking fashion. No backing glass available.

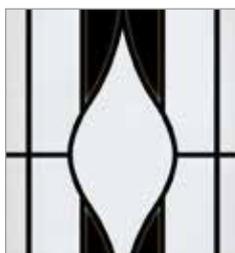

## MURANO BLACK

Inspired by the masters of elegance, the Murano 'oozes' Italian flair and charm. An imaginative fusion of linear motifs and bold sweeping curves, Murano is our most popular Etch and Fusion Art design unit. Fancy some colour? Ask your installer for the available colour options for your chosen style of door! Murano Black is supplied with clear backing glass as standard. Optional backing glass is available.

## KENSINGTON

The Kensington range of glass is simplistic, but elegant. The 10mm clear border combined with sandblasted centre glass allows just the perfect amount of light to flood through the entrance of your home. No backing glass available.

## BARCELONA BLACK

This unique decorative design is a new addition to the Definitive Collection and looks fantastic in many different coloured doors. The etched design is encapsulated within the sealed unit for ease of cleaning & offers a high level of privacy whilst also allowing plenty of light into the home. No backing glass available.

## ECLIPSE (TRIPLE GLAZED)

The Eclipse range is a perfect blend of traditional and contemporary design and will look stunning in both modern and period properties. The glass panels are triple glazed with a zinc came and the design is also encapsulated within the insulated unit. Two strong backing textures provide a tasteful backdrop and the cut bevels are topped with a fine glue chip texture to offer good levels of obscurity. No backing glass available.

## CAMEO (TRIPLE GLAZED)

The 'Cameo' is one of our favourites! This range is handcrafted with glue chip bevels and zinc came. The decorative panel is insulated between two panes of toughened safety glass, so the lead-work is protected from the elements so won't oxidise and is much easier to maintain. A stunning unit whilst very classic in its style. No backing glass available.

## JEWEL (TRIPLE GLAZED)

The 'Jewel' range features a very contemporary design coupled with a glistening multi-faceted jewels that refract light with dramatic effect. The range features left and right hand panels which combine perfectly to produce a stunning and grand entrance. No backing glass available.

## CRYSTAL

Each 'Crystal' glass panel features state of the art resin technology that provides a number of aesthetic and practical benefits. A popular choice for our 'Ayton' door style, this glass design is laminated for additional security and will hold together even if broken. No backing glass available.

## CRYSTAL HARMONY

This traditional bevelled glass design is available for certain styles of doors and with a choice of coloured borders, can really add character to your home. Optional backing glass available.

## OBSCURE GLASS

All of our doors are available with plain obscure glass. Please see the back of our brochure for details.

# Security

As one of the oldest international brands, Yale is among the most respected names in the lock industry, with millions of Yale locks in use worldwide. You will be comforted to know that our Composite doors are fitted with the worlds leading lock brand Yale as standard with the exception of our contemporary door range which are fitted with Winkhaus key-wind locks. Both Yale and Winkhaus products are also accredited with 'Secured by Design'.

The Winkhaus 'Thunderbolt' key-wind lock is used in conjunction with our stainless steel bar handles or any door supplied without a lever handle. The euro cylinder (where you put the key) is positioned higher up the door. When the door is closed the lock will engage on the latch only, to lock or re-open the door from outside you will need to use the key.

The world's favourite lock

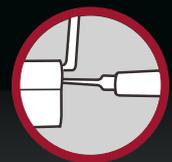

The **Definitive Collection** offers you the latest technology in high security cylinders to provide the ultimate resistance against all known attack methods. The euro cylinder lock (which is where you put your key to lock the door) is the single most important safety feature on any door. The ATK cylinder carries the highest accreditation available in the UK, all of which is listed below.

## ATK<sup>®</sup> Attack Series

- ✓ Patented Avocet Break Secure (ABS) cam technology
- ✓ British Kitemark TS007:2014 3 star rated lock (KM 586153)
- ✓ Police preferred Secured by Design accreditation
- ✓ Sold Secure Diamond rated
- ✓ Stunning polished Chrome finishes
- ✓ Unique click secure thumbturn design
- ✓ Over 80,000 combination differs
- ✓ Includes five soft grip keys
- ✓ Keyed alike cylinders option

✓ **SNAP SECURE** ✓ **ANTI BUMP** ✓ **ANTI DRILL** ✓ **ANTI PICK**

**Tried, tested and then some...**  
Avocet ATK<sup>™</sup> locks are the highest accredited range of euro cylinder locks on the market. Tested regularly and independently by police, locksmiths and security professionals - the ATK<sup>™</sup> lock range is proven to be secure.

TS007 - 3 STAR

# An eye for detail...

To keep up with the demands of a constantly changing market place, we have specially sourced a wide range of durable hardware in a good selection of colours and finishes, guaranteed to add those individual finishing touches. These have all been designed to withstand the rigours of the British weather and will still look good in year

## Taking care of your doors

All of our Composite Doors are supplied with a cleaning and maintenance guide.

Please keep safe for future reference.

**Cleaning**

The Definitive collection  
www.thedefinitivecollection.co.uk

**Thank you** for choosing your new Definitive Collection Composite Door(s)

To keep the pristine look of your new door please observe these simple instructions:

**Cleaning your door every 4-6 weeks**

Part of the door	Cleaning	Finishing
Door Leaf	Keep the grime & grit away with a warm damp cloth (do not use washing up liquid) dry with a micro-fibre cloth.	
Door Frame	Wash with warm soapy water with a soft cloth	Stubborn stains will demand specialised PVC-U cleaner (not to be used on the painted door leaf)
External Glass	Wash with warm soapy water with a soft cloth	Finish with a proprietary glass cleaner
Leaded Glass	Wash with warm soapy water with a soft cloth	Finish with a proprietary glass cleaner (some oxidation may naturally occur)
Hardware (handles knockers & L/Box)	Wash with warm soapy water with a soft cloth	Use a micro-fibre cloth to shine

**CAUTION! DO NOT USE**  
Washing up liquid or detergents, abrasive cleaners or scouring pads. High pressure or steam cleaners. Bleach. Solvents. Acids or thinners or caustics.  
Before cleaning your door remove all jewellery including watches to avoid scratches.

&

**Maintenance**

The Definitive collection  
www.thedefinitivecollection.co.uk

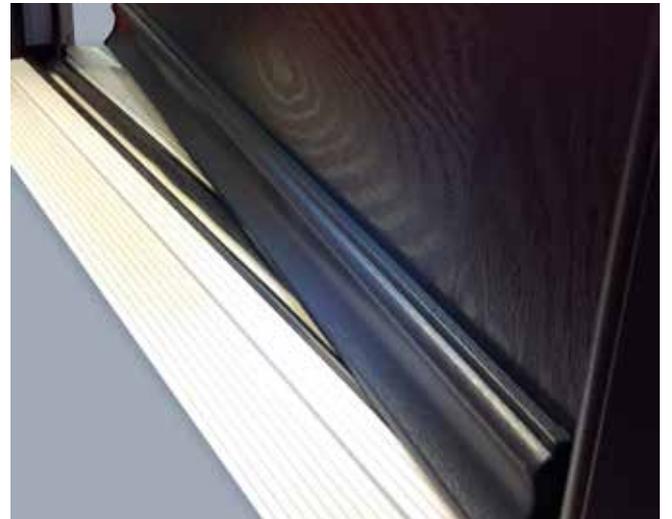

**Thank you** for choosing your new Definitive Collection Composite Door(s)

To maintain the pristine look of your new door please observe these simple instructions:

**Maintain your door every 6 months**

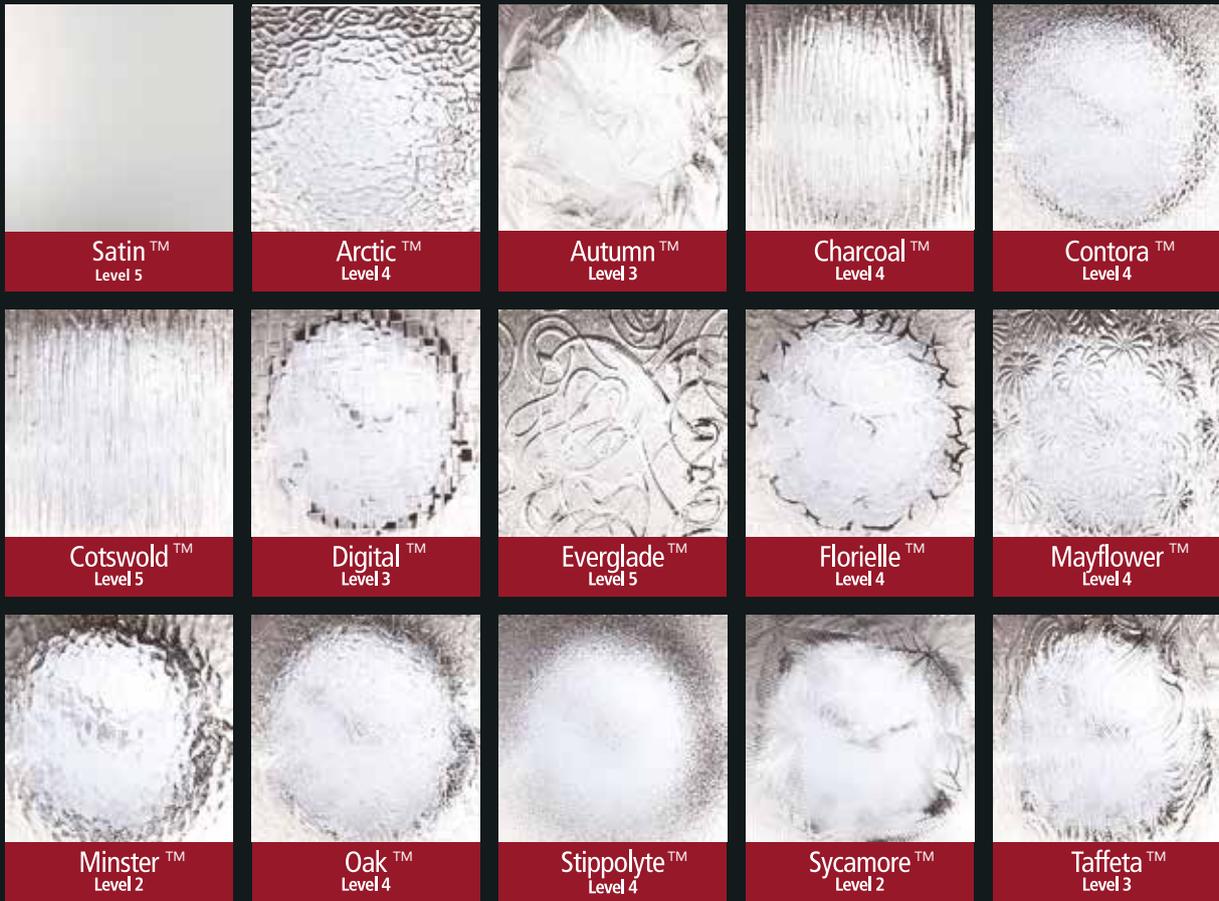

Part of the door	Recommended Maintenance	Notes
Hinges	Keep them at their best by lubricating with a little light engineering oil e.g. 3 in 1	
Euro Cylinder Locks (where you put the key)	Graphite Powder	Do not use oil
Hardware (handles knockers)	Just add a touch of engineering oil on all moving parts	Especially important if you live near the coast or by a building or industrial site

**IMPORTANT!**  
Protect your door from natural thermal distortion. Make Sure the top & bottom hook-bolt locks are engaged by pulling the handle up every time you shut the door.

## Obscure Glass Range

Five levels of privacy on our Pilkington Textured Glass are available, graded from 1 (least obscure) to 5 (most obscure)

All of the above Obscure Glass images are provided by and copyright of Pilkington plc.

*The Definitive*  
collection  

Confidence comes from knowing that *The Definitive Collection* of Composite Doors are designed and engineered with the very highest standards of quality, security and reliability in mind.
